

## Circle Line

Celebrate New York with the Fleet that Circles it

Nobody does New York's waterways like Circle Line – the city's first and the world's most famous sightseeing cruise line. New York is the city that never sleeps and Circle Line is the sightseeing attraction that never rests on its laurels, welcoming the arrival of three new boats to the fleet. The designs pay homage to the original ships but the amenities and creature comforts are all state-of-the-art: WiFi, upgraded sound systems, digital screens, expanded outdoor deck spaces and bigger windows for unobstructed views of every remarkable landmark, monument and skyscraper. Circle Line has perfected the art of turning parties into legendary events. Private and semi-private charters available with flexible catering menus tailored to accommodate any dietary request.
